Property Values for Lake View Township Released

Cook County – Cook County Assessor Fritz Kaegi released the initial assessments of residential and commercial properties in Lake View Township on July 2, 2024. The Assessor's Office reassesses one-third of Cook County every year. Chicago was last reassessed in 2021.

"I strongly encourage property owners to review their reassessment notice to ensure their property characteristics and market value reflect their home," said Assessor Fritz Kaegi. "It is important to understand that assessments in Cook County reflect market value over the last three years. My office will be hosting a virtual workshop to assist property owners and explain reassessments in their community."

The total assessed value in Lake View Township grew 27%, which reflects three years of real estate market changes.

How do assessment appeals work?

Property owners are given an opportunity to appeal their assessment if the property characteristics listed on an assessment notice are incorrect, or if the estimated market value of a property is significantly more than what it could sell for in the current real estate market.

To learn more about property assessments and appeals, watch our upcoming virtual workshop live on [Facebook](#) or [YouTube](#) scheduled on July 14 in English and July 15 in Spanish. The workshop will include information about the reassessment notice and how property owners can file appeals with the Assessor's office. After a township undergoes reassessment, a valuation report is released that provides details on residential, commercial, and multi-family reassessments. Property owners can use these reports to gain insight on how property assessments work, learn about the real estate market in their specific neighborhood, and compare the median to their property value.
