## 2020 Reassessment of South Suburbs Begins with River Forest Township

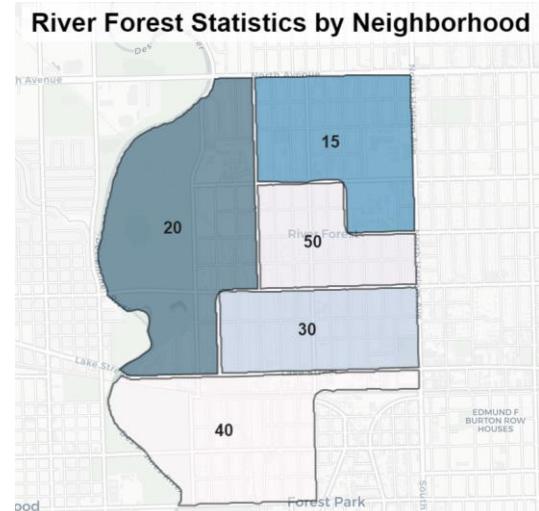

### *Detailed Methodology Reports Released*

**CHICAGO** – Cook County Assessor Fritz Kaegi announces that reassessment notices were mailed to approximately 3,000 single-family, 1,000 condominium and 300 commercial and multi-family property owners in River Forest Township. Detailed narrative reports explaining the methodology are available on the website at:

[www.cookcountyassessor.com/river-forest-2020](http://www.cookcountyassessor.com/river-forest-2020)

"These reports are part of our office's commitment to increase transparency and provide greater predictability within our assessment system," Assessor Kaegi said. "This is the first township to be reassessed in the South Suburbs and my office will continue to post

comprehensive reports for the remaining townships as notices are mailed throughout the year."

Each year, the Cook County Assessor's Office (Assessor's Office) reassesses one-third of the nearly 1.8 million parcels of property located in Cook County, a process referred to as the triennial reassessment.

The Assessor's Office is reassessing properties located in South Suburban Cook County this year and River Forest Township is the first of 17 townships to be reassessed in 2020.

The deadline to file an appeal for River Forest Township is March 19, 2020. As a reminder, the 2020 South Suburb reassessments will be reflected on the second installment property tax bill in July 2021. Any appeals of a property's assessed value will be reflected on the second installment tax bill in the year following the appeal.

**-more-**

**A detailed narrative regarding the reassessment of residential properties in River Forest Township can be found on the Assessor's website at the following link:**

[www.cookcountyassessor.com/river-forest-2020](http://www.cookcountyassessor.com/river-forest-2020)

***Among the findings from the residential River Forest Township reassessment:***

- River Forest has grown by approximately \$40m in total assessed value since the previous reassessment in 2017. Increases in the total assessed value of a township reduce the tax rate for all property owners.
- In 2019, the median sale price of a single-family home in River Forest was \$675,000.
- The median estimated Fair Market Value (FMV) for a single-family home in River Forest in 2020 is \$668,510. The 2019 median FMV was \$552,080. The median change in estimated FMV was 19%.
- The most common single-family home type was class 2-06: a two-or-more story residence, over 62 years of age, 2,201 to 4,999 square feet.

**A detailed narrative regarding the reassessment of commercial/industrial properties in River Forest Township can be found on the Assessor's website at the following link:**

[www.cookcountyassessor.com/river-forest-2020](http://www.cookcountyassessor.com/river-forest-2020)

***Among the findings from the commercial/industrial River Forest Township reassessment:***

- Fair market values of commercial properties have risen in River Forest since 2017.
- Market rents used in the 2020 reassessment were generally higher than rents used in the 2017 reassessment. This generates additional increases in market value (resulting in comparable increases in assessed value).
- The most powerful driver of increased values is a lower capitalization rate, driven by a low interest rate environment and increasing rental rates. For example, the range of cap rates used for apartments in 2017 was 9.0 to 9.75%, and in 2020 was 6.0% to 6.5%.

"I encourage all taxpayers to take the time to visit our website and review the detailed methodology reports as we continue to post them online," Assessor Kaegi said. "I remain committed to increasing transparency and making the assessment process easier to understand and navigate."
