2020 Lemont Residential Reassessment Report

2020 South Triad Reassessment
Reassessment notices mailed: May 27, 2020
Typically during a reassessment in 2020, the Assessor’s Office would produce a 2020 Market Estimate of your home’s value based only on prior sales of homes.

Due to the significant economic impact of the COVID-19 outbreak and the natural disaster proclamation by the Governor of Illinois, the CCAO also applied a COVID-19 Adjustment to property values. Each home’s adjustment depends on its location and property type.

The rest of this report contains information about initial Market Estimates and the real estate data used to produce them, and COVID-19 Adjustments in Lemont.
Lemont’s residential reassessments

Median initial estimate of single-family home values, based on sales data from 2015-2019:

$391,233

Median COVID-19 Adjustment, based on Jan-April 2020 market & economic data:

-10.8%

Median estimated CCAO fair market value that combined Market Estimate and COVID-19 Adjustment

$373,365

The final median change in the CCAO’s estimated FMV from 2017 to 2020 was -1.3%.

Lemont homeowners: the market value printed on your notice of reassessment in 2020 has been adjusted.
How the Assessor’s Office produced an estimate of Fair Market Value (FMV) for a single-family home in Lemont:

For each home...  

1. Data about sales of similar homes nearby were used to calculate trends in sale values.

2. These trends were used to estimate this home’s initial value.

3. The COVID-19 Adjustment was applied to the value of the home.

<table>

COVID-19 Adjustment was applied to the value of the home.
Lemont is the 14th largest township in the south and west suburbs. In 2020, it had:

- 7,447 single-family homes,
- 232 residential condos, and
- 142 class 2 multi-family parcels.

The most common single-family home type in 2020 is a class 2-78: Two or more story residence, up to 62 years, 2,001 to 3,800 sq. ft.

The median sale value of a single-family home in Lemont in 2019 was $385,000.

The Cook County Assessor’s median estimated Fair Market Value (FMV) for a single-family home in Lemont in 2020 is **$373,365**. In the prior reassessment of Lemont in 2017, the median FMV was $378,220. The median change in estimated FMV from 2017 to 2020 was -1.3%.

Lemont has grown by approximately $30.6 million (8.8%) in total assessed value from 2019 (Assessor-certified) to 2020 (Assessor mailed values).

Single-family homes numbers include the following property classes: 202, 203, 204, 205, 206, 207, 208, 209, 210, 234, 278, 295
Condos include the following property classes: 299 (See appendix)
Multi-family homes include the following property classes: 211, 212 (See appendix)
The Assessor’s legal obligations for property reassessments:

1. A property’s value must be **fair** – a fair market value.

2. In Cook County, properties must be re-assessed **every 3 years**.

3. Property assessments must be **uniform**.

4. Property assessments must comply with Cook County ordinance about the property’s **assessed value**, which is used to determine property taxes.

* = This is literally the statutory duty of the Assessor per the Illinois Tax Code (§35 ILCS 200).

** = Levels of assessment for taxation are set by Cook County Ordinance.
Taxes are calculated every year. But the reassessment cycle is every 3 years.

South/West Suburbs:
- Reassessed in 2017 and 2020
- **2020** reassessments are reflected in the second installment property tax bill sent in summer **2021**
The Illinois Tax Code (35 ILCS 200/1-50) defines a home’s fair cash value like this: Sec. 1-50. Fair cash value. The amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller.

This is referred to as the Fair Market Value.

When you receive a Reassessment Notice in the mail, it contains this updated value, along with characteristics of your home.

To produce a fair market value for a home in 2020, we look to recent trends in the real estate market.
What were the trends in Lemont home sales?

These trends were observed in the real estate market for single-family homes from January 1, 2015 to December 31, 2019. Sales are recorded by the Cook County Recorder of Deeds and reviewed by the Illinois Department of Revenue. Dashed lines represent 25th and 75th percentiles each year: of all the Lemont single-family homes that sold in each year, 50% of them had sale prices between the dashed lines.
The COVID-19 pandemic is associated with increasing unemployment. Historically, when unemployment rises, housing prices decline.

The CCAO analyzed evidence about the economic effects of COVID-19 from sources including the Urban Institute, Case-Shiller housing indices, Real Estate Investment Trusts (REITs), and census workforce data.

The CCAO estimated unemployment in each of Lemont’s neighborhoods and then created a COVID-19 Adjustment for each single-family homes and condos in each neighborhood.

Neighborhoods with higher estimated unemployment had larger adjustments.
The median estimated Fair Market Value for a single-family home in Lemont in 2020 is $373,365.

Lemont was last fully reassessed in 2017. Between the 2017 and 2020 reassessments, median values can change due to single-property reassessments (for new construction or similar reasons) and appeals.

This graph shows the median CCAO estimated Fair Market Value for single-family homes. Please note that all values before 2020 are Assessor-certified values.
Sales Comparison between Reassessments:

Let’s look at median sale prices of homes. Because reassessments in a year rely most on sales that occurred in the year prior, let’s examine changes in median prices of a home in 2016 and 2019 (for reassessments in 2017 and 2020).

<table>
<thead>
<tr>
<th>Year</th>
<th>2016</th>
<th>2019</th>
<th>Median % change</th>
</tr>
</thead>
<tbody>
<tr>
<td>Median sale price of a home</td>
<td>$367,750</td>
<td>$385,000</td>
<td>4.5%</td>
</tr>
</tbody>
</table>

Note that the CCAO used sales data as well as COVID-19 Adjustments to produce estimated Fair Market Values in Lemont in 2020.

CCAO estimated FMV Comparison:

<table>
<thead>
<tr>
<th>Year</th>
<th>2017</th>
<th>2020</th>
<th>Median % change</th>
</tr>
</thead>
<tbody>
<tr>
<td>Median CCAO estimated</td>
<td>$378,220</td>
<td>$373,365</td>
<td>-1.3%</td>
</tr>
<tr>
<td>Fair Market Value</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Sale prices of homes are affected by location. Because of this, estimates of Fair Market Values also depend on location.

The CCAO’s database contains a township and a **neighborhood code** (see left) for each home.

A home’s neighborhood code can be found on its Reassessment Notice and on its PIN details at cookcountyassessor.com.
COVID-19 Adjustments in Lemont neighborhoods

Neighborhoods with larger increases in estimated unemployment... had larger COVID-19 Adjustments to Fair Market Values of homes.

These numbers include the following property classes: 2-02, 2-03, 2-04, 2-05, 2-06, 2-07, 2-08, 2-09, 2-10, 2-34, 2-78, 2-95.

* = Too few sales in 2019 to calculate a statistically valid sales ratio.
Why two homes can have different changes in Assessed Value

Q: Between the 2017 and 2020 reassessments, the median change in assessed value was -1.3%. Why did my home’s assessed value change more (or less) than -1.3%?

Every home is different. Because of this, your home’s change in assessed value may be different from a neighbor’s change (or different from the median change).

Homes have different characteristics (like age and square footage), and are in different neighborhoods. Homes with different characteristics often have different patterns in sales, and these different patterns can therefore produce different changes in estimates of each home’s fair market value – and therefore different changes in assessed value.
Assessments should be uniform.

There are many ways to measure this. The CCAO is committed to measuring our work against the industry standards of uniformity, set by the International Association of Assessing Officers (IAAO). The IAAO defines two standards for uniformity: variability and vertical equity. The CCAO sets its standard to meet both of these metrics for every township.

- **Variability** measures the degree to which all values in a data set vary from the average. When variability is low, this indicates high-quality assessments.

- **Vertical equity** measures the degree to which high-value property assessments are similar to lower-value property assessments. There are two metrics for vertical equity.
The IAAO provides one statistic for measuring variability of assessments: Coefficient of Dispersion, or COD. Low variability indicates a high-quality assessment.

There are two statistics for measuring vertical equity of assessments: Price-Related Differential and Bias (PRD and PRB). If either PRD or PRB falls within the target range, the standard for vertical equity is considered met. **In the 2020 Reassessment of Lemont, the CCAO has met all standards for uniformity.**

The following slides provide details about current and historical uniformity metrics in Lemont.

<table>

<td>1.00</td>
<td>Yes</td>
</tr>
<tr>
<td>Vertical Equity(2)</td>
<td>PRB</td>
<td>-0.05-0.05</td>
<td>0.03</td>
<td>Yes</td>
</tr>
</tbody>
</table>
Variability: Coefficient of Dispersion

Variability measures to what degree data points in a statistical distribution or data set diverge from the average. Low variability indicates high quality assessments. Coefficients of Dispersion (CODs) between 5 and 15 indicate high-quality assessments.

This graph shows that our COD for the 2020 re-assessment for this township is 8.79. As it is between 5 and 15, the COD has met the IAAO standard for variability.
Vertical equity is the degree to which low-value properties are assessed at the same ratio as high-value properties. PRDs between .98 and 1.03 indicate high-quality assessments.

This graph shows that the PRD is 1.00 for our 2020 assessments of this township, which is within the target range.
Vertical equity is the degree to which high-value properties are assessed at the same ratio as low-value properties. PRBs between -.05 and .05 indicate high-quality assessments.

This graph shows that the PRB for our 2020 assessment of this township is 0.03. Because it is between -.05 and .05, the PRB has met the IAAO standard for variability.

Residential includes all class 2. Commercial/non-residential includes classes 1, 3, 4, 5, 6, 7, and 9.

2019 are Assessor-certified final values.
2020 values are Assessor mailed values.
Sales Data

The Cook County Assessor’s Office uses a computer-assisted mass appraisal method to value residential properties, which requires a significant number of data points about home’s characteristics (like location, age, square footage, and construction material) and sale prices.

In Lemont between 2017 and January 31, 2020, there were 1,601 sales of the total of 7,447 Single-Family homes. To create a larger data set, our office added sales data from across the south and west townships in Cook County.

This created a sales database of 175,741 sales from 2015 to the end of 2019.

These sales are recorded by the Cook County Recorder of Deeds and reviewed by the Illinois Department of Revenue before entering our database.

Note that each home’s estimated fair market value depends most on its individual characteristics and location. For each home, sales of homes that are closer to its location and more similar to it contributed more to our estimate of its value.
Appendix C: What is an Assessed Value?

The estimated Fair Market Value of a property is not what is taxed. The taxable value of a property depends on its Assessed Value (AV). The AV is a percentage of its Fair Market Value (FMV).

Cook County ordinance defines different assessment levels for different property types:

- Residential and apartment properties are assessed at 10% of FMV
- Most non-incentive commercial properties are assessed at 25% of FMV.

Example: for a home with a FMV of $373,765, its AV equals 10% of $373,765, for $37,377.

Note: residential property tax bills depend on the property’s local tax rate, its assessed value, any exemptions applied to the property, and the State Equalizer. These numbers are all printed on the second-installment tax bills mailed by the Cook County Treasurer. 2020 reassessments will affect second-installment property tax bills sent in 2021.
Lemont contains 232 residential condos (class 299). We report on condominiums separately from single-family homes because they may exhibit different trends in real estate activity.

We observed these trends in the real estate market for residential condominiums from January 1, 2015 to December 31, 2019. Sales are recorded by the Cook County Recorder of Deeds and reviewed by the Illinois Department of Revenue. Dashed lines represent 25th and 75th percentiles each year: of all the Lemont condos that sold in each year, 50% of them had sale prices between the dashed lines.
In 2020, the median estimated Fair Market Value of a condominium in Lemont is $146,110. In Lemont’s last reassessment in 2017, the median estimated FMV was $171,110. The median change in FMV from 2017 to 2020 was -17%.

Below are statistics by neighborhood. Most condos are in Neighborhood 10.

* = Too few sales to calculate a statistically valid sales ratio.

These numbers include the following property classes: 2-99
Lemont has 142 multi-family apartment buildings of 2 to 6 units. We report on this property type (property class codes 2-11 and 2-12) separately from single-family homes because they may exhibit different trends in real estate activity.

We observed these trends in the real estate market for residential multifamily apartment buildings from January 1, 2015 to December 31, 2019. Sales are recorded by the Cook County Recorder of Deeds and reviewed by the Illinois Department of Revenue. Dashed lines represent 25th and 75th percentiles each year: of all the Lemont multifamily apartment buildings that sold in each year, 50% of them had sale prices between the dashed lines. Note that there were very few sales in a given year.
Appendix E2: Residential Multi-Family Reassessments

In 2020, the median estimated Fair Market Value of a multi-family apartment in Lemont is $266,230. In Lemont’s last reassessment in 2017, the median estimated FMV was $258,720. The median increase in FMV from 2017 to 2020 was 3%.

Below are statistics by neighborhood. Most multi-family apartments are in Neighborhood 10.
